

INFINITE
MINING & ENERGY

COMPANY PROFILE

Empowering Global Markets

with Excellence through our products and services

WHO WE ARE

INFNITE MINING & ENERGY is a leading oil refining and trading company committed to delivering safe, reliable, and sustainable energy solutions. Established in 2018, we operate across the entire energy value chain—from production to refining, storage, shipping and distribution.

With headquarters in Hamriyah Freezone, Sharjah – UAE and strategic partners globally, we play a vital role in meeting the world's growing energy demand while driving innovation and maintaining environmental responsibility.

Mission

To be a world-class energy company recognized for operational excellence, sustainable practices, and creating value for stakeholders.

Vision

- Deliver high-quality energy solutions safely and efficiently
- Operate with integrity, transparency, and environmental responsibility
- Innovate continuously to adapt to evolving energy needs
- Empower communities and invest in local development

Values

- **Safety First:** Ensuring the safety of our people, communities, and the environment
- **Integrity:** Conducting business honestly and ethically
- **Sustainability:** Committing to responsible resource use and climate action
- **Innovation:** Leveraging technology for efficiency and growth
- **Excellence:** Striving for the highest standards in operations and performance

WHAT WE DO

Refining

Our state-of-the-art refinery located in Hamriyah Freezone, Sharjah – UAE, is at the core of our operations, utilizing advanced catalyst cracking processes to transform heavy-end feedstocks into high-value products like :

- **Naphtha**
- **Kerosene**
- **Gasoil**
- **Fuel Oil**
- **Specialty Solvents such as Aliphatic Hydrocarbon, White Spirit, Mineral Turpentine Oil, and Solvent Naphtha.**

Global Oil Trading

With a vast and active trading network, Infinite Mining & Energy refines, sources and supplies premium products directly from the world's top-tier refineries including our own and established global Oil Majors. Our petroleum trading portfolio encompasses

- Naphtha
- Gasoline & Blending Components
- Jet A-1 & Kerosene
- Gasoil
- Fuel Oil
- Base Oil (Group II & III)
- Bitumen

Aromatics & Intermediates

- Benzene
- Toluene
- Paraxylene
- Pygas
- Methanol
- Cyclohexane
- Purified Terephthalic Acid (PTA)
- Heavy Aromatics
- Mixed Xylene (Isomer grade)
- White Spirit

TRAFIGURA

Formosa Petrochemical Corporation, Taiwan

High Capacity Storage Solutions

Our strategically located storage facilities are equipped with cutting-edge technology to ensure the secure and efficient handling of petroleum products. These include Internal Floating Roof Tanks for Class 1 products, inter-tank circulation and blending systems for optimal inventory management, and fully automated fire protection systems for enhanced safety. We also operate on-site laboratories for precise product testing and quality control, ensuring that all products meet international standards.

Bunkering Services

We provide marine bunkering services, fueling vessels that call at UAE ports with low sulphur high-quality fuel and lubes. Operating 24/7, our bunkering division ensures a reliable fuel supply through customized risk-managed contracts and competitive pricing models. We also adhere to International Maritime Organization (IMO) regulations, focusing on sustainability and compliance with global maritime energy directives.

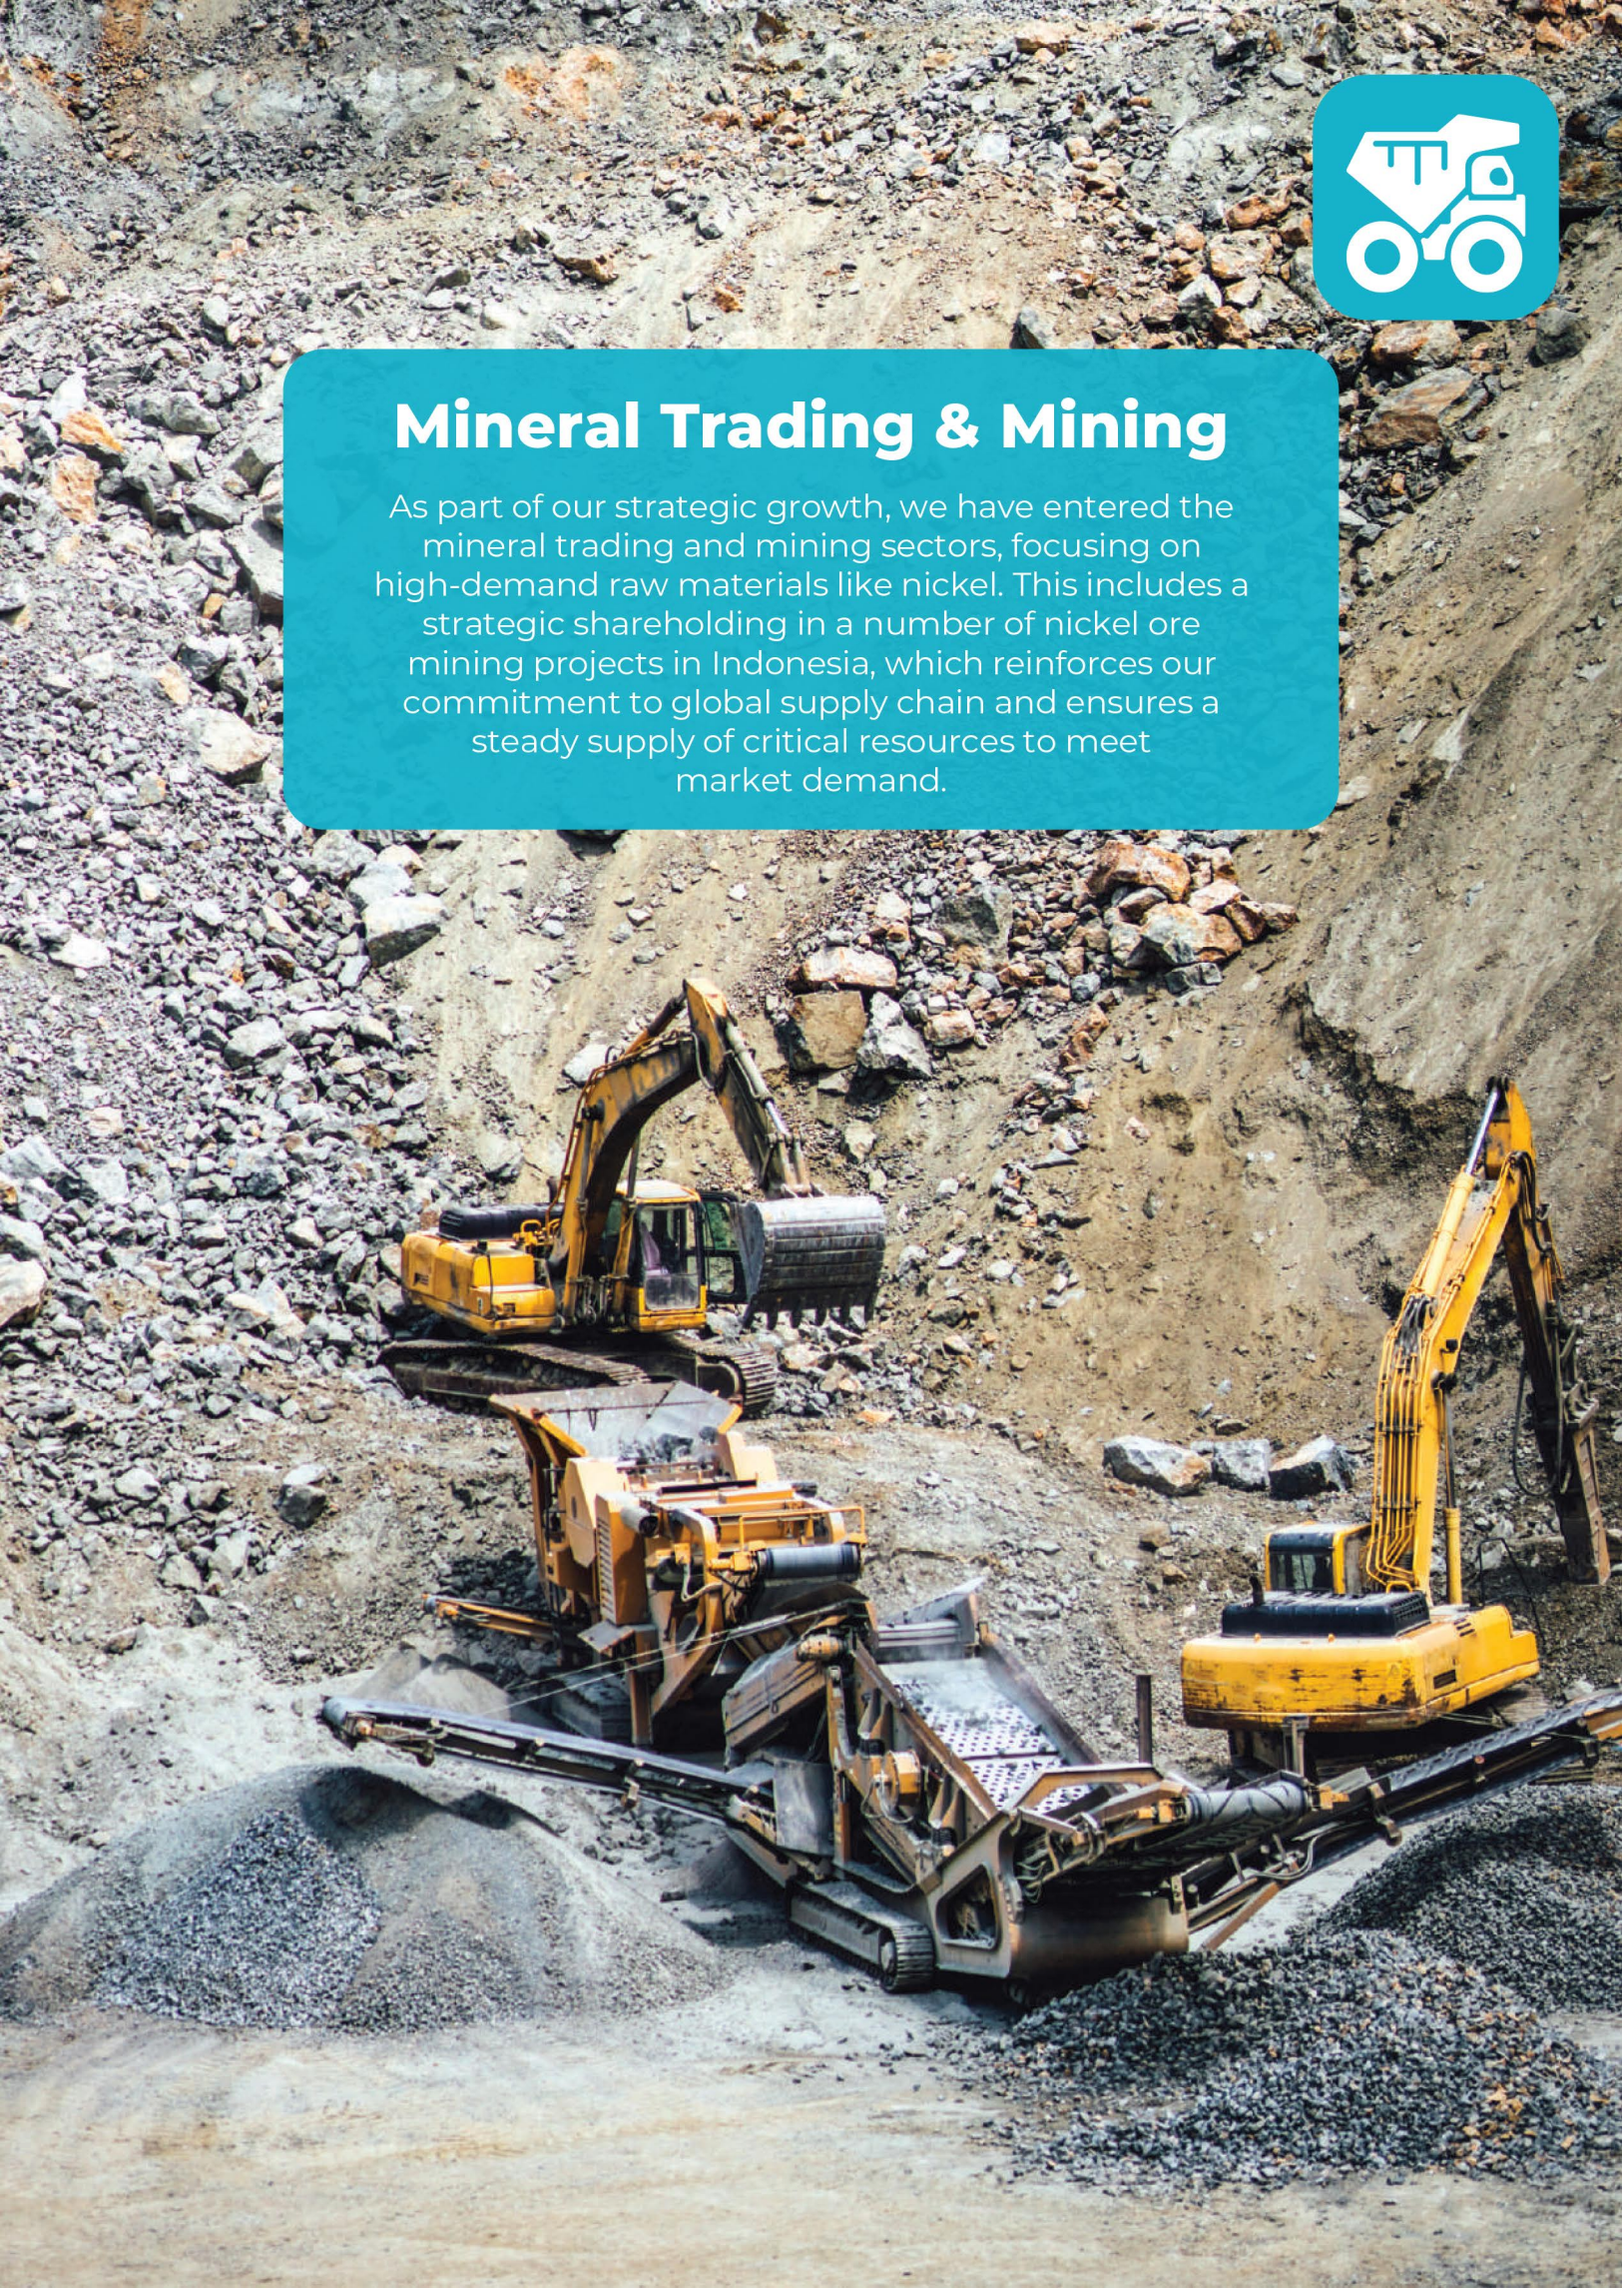

Integrated Shipping & logistics

We have an integrated approach to logistics that enhances operational efficiency by facilitating geographical arbitrage opportunities, enabling us to increase added value to our customers.

Our shipping business conforms to stringent international safety and environmental protection standards and matches industry standards across the world. We undertake regular and rigorous inspection through relevant industry and regulatory bodies. Building on longstanding relationships with leading shipping and brokerage companies across the world allows us to deliver time-sensitive solutions to customer needs and aspirations.

Mineral Trading & Mining

As part of our strategic growth, we have entered the mineral trading and mining sectors, focusing on high-demand raw materials like nickel. This includes a strategic shareholding in a number of nickel ore mining projects in Indonesia, which reinforces our commitment to global supply chain and ensures a steady supply of critical resources to meet market demand.

Sustainability & CSR

We are committed to reducing our carbon footprint and investing in cleaner energy alternatives. Through corporate social responsibility programs, we support education, healthcare, and community development in regions where we operate.
